

AprilAire Whole-House Air Purifiers

Choose the right whole-house Air Purifier for your home. Everyone deserves to breathe Healthy Air.

Removes Pollutants

AprilAire air purifiers trap common airborne pollutants like viruses, allergy and asthma triggers, among others.

Protects Your Home

Keep your HVAC system working more efficiently, minimizing repair costs and extending service life.

Identifies Climate Conditions

Manage your air purifier with a simple-to-use control that's conveniently located in your living space.

When you choose a genuine AprilAire air purifier, you're choosing [Healthy Air](#). You're also helping to both protect your HVAC systems from fewer service calls and to make them last.

Genuine AprilAire air purifiers are specifically engineered to work with your [AprilAire air filter](#). Whole-home air purifiers work to remove harmful particulates from your home's air such as mold, pet dander, airborne viruses, pollen, and odors.

Our air purifiers help create Healthy Air for your entire home, not just space or a room, and can help reduce triggers for allergy and asthma sufferers.

MERV 13 and **MERV 16** filters were included in **Consumer Reports' 2020 Air Filter Ratings**
